

Swimming Pool Water Circulation Pump

This swimming pool pump is designed for efficient water circulation and filtration. It is suitable for various pool sizes and applications, providing reliable and consistent performance.

Product Overview

Professional Water Circulation Solution

This high-performance swimming pool pump is engineered for the efficient recycling and filtration of water in medium and commercial swimming pool environments. Designed for continuous operation, it combines robust materials with advanced motor protection to ensure reliable water quality management. Its durable construction features corrosion-resistant components, making it a dependable choice for maintaining clean and healthy pool water.

Technical Construction

Materials Used

Component	Material
Pre-filter & Pump Body	PP
Pump Foot	PP
Impeller & Seal Mounting	PPO
Motor Shaft	Stainless Steel AISI 420
Mechanical Seal	Graphite and Steatite
Motor Housing	Aluminum L-2521
