

# Switzerland 2-Pin AC Power Cord

This is a two-pin power cord designed for use in Switzerland and similar regions. It connects electrical appliances to the power grid.

## Product Overview

### Professional Swiss Standard Power Connectivity

This Switzerland 2-pin power cord is engineered for reliable connectivity in Swiss electrical environments, adhering to the SEV 1011 certification standard. Featuring an IEC C7 interface, it offers robust performance with support for up to 10A at 250V. Designed with flexible cable options, it serves as a versatile solution for a wide range of electrical appliances requiring a two-prong connection.

## Technical Specifications

### Rated Current

**10 A**

Rated Current

**250 V**

Max Voltage

Plug Standard	SEV 1011 (Switzerland 2-Pin)
Connector Type	IEC 60320 C7

## Compliance & Quality

Approvals	SEV 1011, Swiss SEV Certified
-----------	-------------------------------

## Cable Details

### Available Cable Specifications

- H03VV-F 2X0.75mm<sup>2</sup>
- H05VV-F 2X0.75-1.5mm<sup>2</sup>
- H05RR-F 2X0.75-1.0mm<sup>2</sup>
- H05RN-F 2X0.75-1.0mm<sup>2</sup>

## Ordering Information

Minimum Order Quantity	2000 PCS
Sample Availability	Yes
