

# Switzerland 3-Pin Power Cord

This Switzerland 3-pin power cord is designed for reliable electrical connections. The durable black cable features a VDE marking, ensuring compliance with European safety standards.

## Product Overview

### Swiss Standard Power Connectivity

This Switzerland 3-pin power cord is engineered to meet the SEV 1011 safety standards, ensuring reliable performance for grounded power supply applications. Featuring robust construction and a versatile design, it is compatible with a wide range of electronic devices. The cord provides a secure and safe electrical connection, supporting voltages up to 250V with a rated current of 10A.

## Electrical Specifications

### Key Performance Metrics

**10 A**
