

Swivel Caster Wheel for Equipment

This swivel caster wheel facilitates the smooth and reliable movement of equipment and furniture. It features durable construction with a metal housing and robust wheel, suitable for various applications.

Product Overview

Industrial Swivel Caster Wheel

This high-performance swivel caster is engineered for the seamless transport of industrial equipment and heavy furniture. Designed with a reinforced metal housing and a robust wheel assembly, it provides exceptional durability in demanding work environments. Its swivel mechanism ensures smooth maneuverability and reliable load-bearing performance for long-term usage.

Technical Specifications

Model Identifier	SC0407
Movement Type	Swivel

Key Features

Suitable Applications

- Industrial equipment mobility
- Furniture handling
- Workshop utility

Materials	Reinforced Metal Housing, Heavy-duty Wheel
