

Swivel Caster Wheel

This swivel caster wheel has a black rubber wheel and a zinc-plated steel mounting bracket. It provides smooth rolling action and durable construction for use on carts, equipment, and furniture.

Product Overview

Versatile Swivel Caster Solution

This swivel caster wheel is engineered for durability and smooth mobility, featuring a robust black rubber wheel paired with a zinc-plated steel mounting bracket. Designed for versatility, it is an ideal component for a wide range of industrial and commercial applications, including heavy-duty trolleys, mobile shelving systems, and large equipment stands. The integrated mounting plate comes with pre-drilled holes, ensuring a straightforward and secure installation process for your equipment.

Construction & Materials

Wheel Material	Black Rubber
