

Swivel Castor Wheel with Elastic Rubber Tire

Swivel castor wheel designed for smooth and quiet rolling. It has a steel bracket, top plate mounting, and elastic rubber tire for durability and load-bearing.

Product Overview

High-Performance Swivel Castor

This swivel castor wheel features a high-quality elastic rubber tire designed for smooth and quiet rolling across various surfaces. Built with a robust steel bracket and a top plate mounting system, it ensures reliable stability and load-bearing capacity. It is an ideal solution for demanding industrial and commercial environments where durability and wear resistance are essential.

Design & Construction

Wheel Type	Swivel Castor
Tire Material	Elastic Rubber
Mounting	Top Plate
Frame Material	Steel

Key Features

Performance Attributes	Quiet Rolling, Wear Resistant, Smooth Operation, High Load Capacity
