

Synchronous Belt Drive Timing Pulley

These timing belt pulleys are available with stock bore configurations. They include XL, L, H, XH, and HTD profiles to accommodate a variety of synchronous belt drive systems.

Product Overview

Precision Synchronous Belt Drive Solutions

These synchronous belt pulleys are precision-engineered components designed for reliable power transmission in industrial machinery. The range covers a comprehensive selection of standard belt profiles including XL, L, H, XH, and HTD series, ensuring compatibility with diverse mechanical drive requirements. Built to international standards, these pulleys provide consistent performance and accurate synchronization across various automated systems.

Technical Specifications

Mounting Options

- Stock Bore
- Taper Bushing Compatible

Available HTD Widths

- 3M: 09, 15
- 5M: 09, 15, 25
- 8M: 20, 30, 50, 85
- 14M: 40, 55, 85, 115, 170

Supported Belt Profiles

XL, L, H, XH, HTD-3M, HTD-5M, HTD-8M, HTD-14M, T2.5, T5, T10

Flange Compatibility

BAT5, BAT10
