

# T-Shape Kitchen Range Hood with Wide Suction

This T-shape range hood is designed for effective kitchen ventilation. It features a large suction area to efficiently remove smoke, grease, and odors.

## ADDITIONAL IMAGES

## Product Overview

### Professional Ventilation Solution

This T-shape kitchen range hood is engineered for high-performance smoke, grease, and odor extraction in professional and residential kitchen environments. Constructed from high-quality, durable stainless steel, it offers both a modern aesthetic and long-lasting reliability. The wide suction design ensures efficient air purification across various kitchen layouts, promoting a cleaner and more comfortable cooking workspace.

## Technical Specifications

Material	Stainless Steel
Shape	T-Shape

## Key Features

### Main Features

- Wide suction area
- Integrated fan speed controls
- Integrated lighting
- Removable grease filters

Compliance	Stainless Steel, Durable, High-Performance
