

# T-Type Copper Tube Terminals

T-type copper tube terminals ensure secure and reliable electrical connections. These terminals are manufactured from high-quality copper, providing excellent conductivity and corrosion resistance.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance T-Type Copper Terminals

These T-Type copper tube terminals are engineered for reliable electrical connections in power cables ranging from 1.5mm<sup>2</sup> to 630mm<sup>2</sup>. Manufactured from 99.99% pure T2 copper and featuring a tin-coated finish, these connectors provide superior electrical conductivity and enhanced corrosion resistance. They are widely utilized across demanding industries including railway, telecommunications, wind power, and aerospace due to their robust performance in extreme conditions.

## Technical Specifications

Material	99.99% pure T2 copper with tin coating
Working Temperature Range	-55°C to 150°C
Conductor Capacity	1.5mm <sup>2</sup> - 630mm <sup>2</sup>

## Certifications and Standards

Compliance Certifications	ISO 9001:2008, ROHS, CE, UL, IATF16949
---------------------------	--

## Applications

### Typical Applications

- Electric cabinets
- Transformers
- Wiring harness manufacture
- Railway
- Communication
- Ship industry
- Aircraft
- PV systems
- Wind power
