Product Overview

High-Performance Abrasive Grinding

These professional-grade grinding wheels are engineered using premium abrasives, synthetic resin, and reinforced fabric to ensure high stock removal rates with minimal clogging. Designed for steel applications, they offer exceptional durability and a long service life. The T27 wheel architecture is optimized for use on portable machines, providing professional buyers with a reliable tool for effective surface preparation and metal fabrication.

Technical Specifications

Dimensions	100 x 6 x 16 mm
Maximum RPM	15300 RPM
Maximum Operating Speed	80 m/s
Spec Code	T27-A 24 R BF

Compliance and Safety

Operational Safety

- Ensure proper wheel mounting before use
- Always utilize machine guards
- Wear personal protective equipment (PPE)
- Use eye protection at all times

Safety Standards	EN 12413
