

T8 LED Tube Light

This T8 LED tube is designed for general lighting applications. It features durable construction and provides uniform illumination, making it ideal for offices, warehouses, and retail spaces.

Product Overview

Professional LED Lighting Solution

This integrated T8 LED tube light provides a reliable and energy-efficient alternative to traditional fluorescent lighting systems. Designed for versatility, it is suitable for a wide range of professional environments including offices, warehouses, and retail spaces. The unit ensures flicker-free illumination with high color rendering, helping to reduce long-term maintenance costs and energy consumption.

Technical Specifications

Luminous Efficacy

85 lm/W
Efficiency

Available Power Ratings

- 8W
- 16W
- 18W
- 36W

Color Rendering Index (CRI)

80 Ra

Key Performance Indicators

Flicker-free, Energy-efficient, Integrated Design

Compliance & Ratings

Ingress Protection

IP20
