

T8 LED Tube

This T8 LED tube is designed for diverse lighting applications. It features durable glass construction, providing bright, energy-efficient illumination.

Overview

Professional LED Illumination

This T8 LED glass tube is a high-efficiency lighting solution designed for professional commercial and residential environments. Engineered for superior energy savings and long-term durability, it serves as an ideal direct replacement for traditional fluorescent tubes. Its robust glass construction ensures consistent performance and bright, reliable illumination for a wide range of lighting applications.

Technical Specifications

Lamp Type	T8 LED Glass Tube
Efficiency Benefits	Energy Efficient, Long Lifespan, Reduced Consumption
Construction Material	Durable Glass

Applications

Recommended Environments

- Commercial lighting
- Residential spaces
- General indoor illumination
