Product Overview

Robust Lighting for Demanding Environments

This T8 waterproof fluorescent fixture is engineered for high-performance in harsh indoor and outdoor conditions. Featuring a durable PC/ABS base with a secure PC/PS cover, it provides reliable protection against water and dust ingress, making it ideal for car washes, parking garages, and industrial kitchens. The unit offers an efficient output of 100 lm/w and is designed for a long lifespan, ensuring consistent illumination even in challenging environments.
