Overview

High-Performance Tablet PCBA

This advanced printed circuit board assembly serves as the core processing unit for tablet devices, integrating a high-efficiency MediaTek processor. Designed for robust multimedia performance, the board features comprehensive connectivity options including USB, audio, and microSD interfaces. Its reliable hardware architecture ensures seamless device control and operational stability for various professional applications.

Technical Specifications

Peripheral Support

- Display Connector
- Battery Interface
- USB Port
- Audio Jack
- microSD Slot

Model ID	MY-MPEG-J7E-01G_V0.1
PCB Rating	94V-0, FR-4
Processor	MediaTek
Certification Code	E351308
