Product Overview

Cold Soda Water Maker-W50

- ◆ RO Reverse Osmosis
- ◆ UV Sterilization
- ◆ Semiconductor Cooling
- ◆ Cool Sparkling Water
- ◆ Multi-stage Temperature Adjustment

Meet Your Individual Needs

Sparkling water

Coffee brewing

Flower and fruit tea

Healthy filtered direct drinking water

Versatile Multi-Function Hydration

This advanced tabletop water dispenser serves as a complete hydration hub, offering instant hot, warm, and cold water alongside built-in sparkling water and soda functionality. Featuring a high-performance 4-stage reverse osmosis filtration system, it ensures your water is pure, safe, and fresh. Designed for modern kitchens and offices, it replaces multiple appliances with a smart, space-saving solution that eliminates long waiting times for temperature adjustments.

Technical Specifications

Performance Metrics

11.8 L/h
Water Flow

18 L/H
Hot Water Output

0.5 L/H
Ice Water Output

Operating Parameters

Parameter	Value
Voltage/Frequency	220V/50Hz
Rated Power	2200W (2100W Heating)
Water Tank Capacity	5L
Working Pressure	0.4-0.6MPa
Net Weight	8.7kg

Filtration System

4-Stage Purification

- Stage 1: PAC Composite Cartridge (Polypropylene folded fiber, PP cotton, Activated carbon)
- Stage 2: Reverse Osmosis (RO) Membrane + Carbon Rod Composite

Features

Smart Functionality

LED Smart Screen, Carbonation Level Alarm, Automatic Pressure Relief, UV Sterilization, Multi-stage Temperature Adjustment, Real-time TDS Monitoring
