

# Tabletop Water Dispenser with Filtration

This tabletop water dispenser provides hot, cold, and ambient water. It features a built-in filtration system for purified drinking water in homes or offices.

## Product Overview

### Professional Filtration and Dispensing

This versatile tabletop water dispenser provides hot, cold, and ambient water, making it an ideal solution for both home and office environments. Equipped with an advanced built-in filtration system, it effectively removes impurities and contaminants to ensure safe, high-quality drinking water. Its energy-efficient design, combined with intuitive digital controls and safety features, ensures both convenience and peace of mind.

## Technical Specifications

### Safety Features

- Child safety lock on hot water tap

<b>Water Temperatures</b>	Hot, Cold, Ambient
<b>Construction Material</b>	Stainless steel
<b>Maintenance</b>	Removable drip tray for easy cleaning

## Performance

### Operational Efficiency

Energy-efficient

<b>Control System</b>	Digital display with temperature control and status indication
