

Tactical Survival Knife with Serrated Blade and Sheath

This tactical survival knife features a partially serrated blade with a central hole. It has a rubberized grip handle with a crossguard and comes with a heavy-duty sheath.

Product Overview

Tactical Survival Excellence

This professional-grade survival knife is engineered for maximum utility in demanding outdoor and tactical environments. Featuring a rugged, partially serrated blade, it offers versatile cutting power for various survival tasks. The ergonomic rubberized grip and integrated crossguard ensure superior handling and safety, while the included heavy-duty sheath provides secure storage and flexible attachment options.
