

Taiwan Standard Power Cord with BSMI Approval

This Taiwan power cord is suitable for electric appliances requiring BSMI standard compliance. It features a 3-pole Taiwan plug.

Product Overview

Taiwan Standard Power Cord

The XR-341 is a robust 3-pole power cord engineered specifically for the Taiwan market, adhering to strict CNS10197 and CNS690 standards. Featuring a reliable grounding pin and integrated strain relief, this power cord is built for safety and durability in electrical appliance applications. It carries official BSMI approval, ensuring compliance with local regulatory requirements for electronic equipment.
