

Tapered Curling Wand with Adjustable Temperature

This tapered curling wand features a PTC fast heat chip and reaches up to 200 . It offers five temperature control settings and a 25-13mm curling tong for varied curl sizes.

Product Overview

Professional Tapered Curling Wand

This tapered hair curling wand is designed for versatile styling, featuring a conical barrel that allows for varied curl sizes from tight ringlets to loose waves. Equipped with a digital interface for precise temperature control, it ensures optimal heat settings for different hair types. The ceramic or tourmaline-coated barrel promotes even heat distribution to minimize damage, while the integrated safety features, including automatic shut-off and a cool tip, provide peace of mind during use.
