

Teal Liquid Transport Truck

This teal truck is designed for transporting liquids. It features a cylindrical tank mounted on the chassis.

Overview

Professional Liquid Transport Solution

This specialized liquid transport truck is engineered for the efficient and safe movement of industrial fluids. Featuring a robust cylindrical tank mounted on a reliable heavy-duty chassis, it provides a stable platform for medium-to-long distance hauling. The inclusion of a dedicated access ladder and industrial-grade construction ensures operational convenience and longevity for demanding transport tasks.

Technical Specifications

Vehicle Category	Liquid Transport Truck
Tank Configuration	Cylindrical
Accessibility	Tank Access Ladder, Standard Cab Design

Performance

Key Operational Highlights

- Integrated cylindrical tank for high-volume liquid transport
- Durable chassis architecture for industrial reliability
- External ladder for maintenance and inspection access
- Standardized truck tire and exhaust systems
