

Telecom Diesel Generator Set, 9-60 kVA

This telecom diesel generator set delivers reliable power with minimal noise, making it ideal for sensitive environments. It features a robust diesel engine and soundproof canopy, ensuring stable performance and quiet operation.

Overview

Reliable Telecom Power Solutions

This diesel generator set is engineered specifically for telecom applications, offering a robust and durable design field-proven in thousands of global installations. It combines a high-performance four-stroke diesel engine with an industry-leading alternator to deliver consistent power with excellent fuel economy. Designed for demanding environments, the unit ensures reliable operation even in extreme conditions, meeting stringent international standards for performance and transient response.

Performance Metrics

Power Output Range

9 kVA

Minimum Power

60 kVA

Maximum Power

Max Ambient Temperature

50 °C

Technical Specifications

Engine Type	Four-stroke-cycle diesel engine
Alternator Protection	IP23
Compliance Standards	ISO8528-5, NFPA 110

Certifications

Quality & Safety Certifications

ISO9001 • ISO14001 • CE • OHSAS18000
