Product Overview

Professional Telescopic Leaf Broom

This telescopic garden leaf broom is engineered for efficient and convenient yard cleanup across various outdoor surfaces like patios, lawns, and driveways. Its adjustable telescopic handle allows for customizable reach and ergonomic comfort, while the durable, high-performance bristles are specifically optimized for gathering leaves and garden waste. The lightweight, durable construction ensures easy maneuverability during use and compact, space-saving storage when retracted.

Key Features

Primary Capabilities

- Adjustable telescopic handle for extended reach
- Ergonomic design for comfortable operation
- Durable bristles for effective debris removal
- Lightweight frame for improved maneuverability
- Compact storage design

Application & Usage

Recommended Surfaces

Gardens, Patios, Driveways, Lawns
