Product Overview

Professional Telescopic Hedge Shears

These professional-grade hedge shears are engineered for precision and efficiency in landscaping and gardening. Featuring hardened steel blades with a serrated edge, they provide superior grip on branches to prevent slippage during cuts. The telescopic design and compound lever system ensure maximum cutting power with minimal operator effort, making them an ideal choice for shaping hedges, shrubs, and bushes.

Technical Specifications

Blade Material	Hardened Steel
Blade Features	Precision-ground, Serrated edge, Anti-slip
Handle Material	Aluminum
Handle Type	Telescopic
