Product Overview

Professional Telescopic Snow Removal Tool

This telescopic swivel head snow brush is an essential tool for winter automotive maintenance, designed for efficiency and safety. It features a dual-side configuration with thick, non-scratch bristles for snow removal and a durable blade for scraping ice. The extendable handle allows for reaching the center of windshields and vehicle roofs with ease, ensuring clear visibility in harsh conditions.

Key Features

Core Features

- Dual-side brush and blade design
- Extendable telescopic handle for extended reach
- Thick, non-scratch bristles
- Swivel head for versatile cleaning angles
- Ice scraper for packed snow and ice
