

# Telescoping Inspection Mirror with LED

This telescoping inspection mirror is equipped with an LED light for enhanced visibility in hard-to-reach areas. The adjustable mirror and telescoping handle allow for optimal viewing angles and extended reach during inspection tasks.

## ADDITIONAL IMAGES

## Product Overview

### Professional Inspection Tool

This telescoping inspection mirror with integrated LED light is engineered for clear visibility in restricted, dark, or hard-to-reach areas. The durable stainless steel construction ensures reliability in demanding environments like automotive repair, HVAC maintenance, and plumbing. With an adjustable swivel joint and a versatile telescoping handle, this tool provides the flexibility required for precise visual inspections.

## Technical Specifications

Mirror Size	2 in x 3.25 in (50 mm x 80 mm)
Minimum Length	290 mm
Maximum Length	876 mm
Material	Stainless steel

## Features

Key Capabilities	LED Illumination, Telescoping Handle, Swivel Joint, Adjustable Angle
------------------	--

## Applications

### Suitable Industries

- Automotive Repair
- HVAC Maintenance
- Plumbing Inspections
- General Mechanical Inspection
