

Temperature Regulating Stainless Steel Electric Kettle

This electric kettle features a stainless steel body and precise temperature regulation. Its gooseneck spout allows for accurate pouring, making it suitable for brewing tea and coffee.

Product Overview

Precision Temperature Control

The T-9022D stainless steel electric kettle offers professional-grade precision for tea and coffee enthusiasts. With an electronic base featuring selectable temperatures of 70, 80, 90, and 100°C, users can achieve the perfect water temperature for every brew. The integrated keep-warm function and robust safety features like dry-boil protection make it a reliable choice for any demanding kitchen environment.

Technical Specifications

Power Performance

2200 W

Max Power (220-240V)

1200 W

Max Power (100-120V)

Capacity

1.7 L

Voltage Compatibility

220-240V, 100-120V
