

Textile Grid Fastener

The textile grid fastener features a grid-like pattern on a light-colored base fabric. Pink vertical stripes run along its length, providing a soft and flexible fastening solution.

Product Overview

Industrial Textile Grid Fastener

This textile grid fastener is designed for industrial applications requiring reliable and flexible securing solutions. Featuring a distinct grid-like pattern with vertical reinforcement stitches, it offers a balance of durability and flexibility suitable for various textile-based assembly needs. The material is lightweight yet robust, making it an ideal choice for specialized industrial fastening requirements.
