

Textile Machinery Bearings

Precision bearings designed for textile machinery, available in various sizes and configurations. These bearings ensure smooth and efficient operation of textile equipment.

Product Overview

High-Precision Textile Machinery Bearings

These precision-engineered bearings are designed specifically for the demanding environments of textile manufacturing equipment. Built for durability and smooth operation, they minimize downtime and ensure consistent machine efficiency. The series offers multiple dimensional configurations to accommodate various machinery requirements and integration needs.

Technical Specifications

Model Specifications

Model	Dimensions (d x D x B/C) [mm]
YS601	430 x 62 x 32
YS607	22 x 246 x 100
YS604	17 x 450 x 12
YS611	16 x 32 x 8
YSNO1	16 x 42 x 8.1
YSNO3	425 x 62 x 16
YSN06	16 x 33 x 8 x 8.1
YSNOT	30 x 455 x 19

Available Model Series

YS601, YS607, YS604, YS611, YSNO1, YSNO3, YSN06, YSNOT
