

Textile Machinery Component Blocks

Set of colored, trapezoidal prism-shaped blocks designed for use in textile machinery. The blocks are colored red, grey, yellow, and black, and appear to be made of a solid material.

Product Overview

Textile Machinery Component Blocks

These professional-grade textile machinery component blocks are engineered for precision and durability in industrial environments. Featuring a unique trapezoidal prism geometry, the set includes four distinct color-coded units—red, grey, yellow, and black—to facilitate easy identification and organizational workflow. The inclusion of an ergonomic handle on the grey module enhances manual handling efficiency, making these components suitable for modular setup or specialized testing configurations.

Physical Characteristics

Geometric Form	Trapezoidal Prism
Color Variations	Red, Grey, Yellow, Black
Handle Attachment	Yes

Technical Specifications

Primary Application Textile Machinery • Industrial Components	
Units Per Set	4
