

Textured Rubber Coated Work Gloves

These work gloves feature a textured rubber coating for enhanced grip and abrasion resistance. The knit wrist ensures a secure and comfortable fit while preventing debris from entering.

Product Overview

Professional Protection and Grip

These textured rubber-coated work gloves are engineered for demanding professional environments where grip and durability are paramount. The specialized coating ensures superior abrasion resistance, while the flexible design maintains essential dexterity for intricate tasks. Designed with a secure knit wrist, these gloves effectively prevent debris from entering, ensuring safety and comfort during construction, maintenance, and landscaping work.

Technical Specifications

Grip Technology	Textured rubber coating
Wrist Closure	Secure knit wrist
Key Features	Abrasion Resistant, High Dexterity, Debris Protection, Durable

Application Areas

Recommended Industries

- Construction
- Landscaping and Gardening
- General Maintenance
- Industrial Handling
