

Thermoelectric Cooler and Warmer with 3.5 Liter Capacity

This thermoelectric cooler and warmer has a 3.5 liter capacity and is suitable for multiple environments. It cools to 20-25°C below ambient temperature and heats to 60±5°C, with LED indicators for cooling or warming modes.

Product Overview

Versatile Thermal Control

The GT-04 thermoelectric cooler and warmer offers a compact 3.5-liter capacity, making it an ideal solution for maintaining food and beverage temperatures in diverse settings. Designed for flexibility, this unit seamlessly transitions between cooling and warming modes, controlled by an integrated thermostat. Its dual-power compatibility ensures reliable performance whether at home, in the office, or on the move in vehicles and boats.

Technical Specifications

Status Indicators

- Green LED (Cooling Mode)
- Red LED (Warming Mode)

Volume Capacity	3.5 L
Power Consumption	20-45W
Power Supply Options	AC 220V, AC 110V, DC 12V

Logistics & Packaging

Container Loading (FCL)

Container Type	Quantity (pcs)
20" Container	924
40" Container	1904

Packaging Dimensions

- Individual Box: 30 x 29 x 31.7 cm
- Master Carton (2 pcs): 61.2 x 30.2 x 32.9 cm
