

Thermoelectric Cooler and Warmer with Adjustable Temperature

This thermoelectric cooler and warmer offers both cooling and warming capabilities. The temperature can be adjusted from 2 to 20 degrees Celsius, and it has a 25-liter capacity.

Product Overview

Versatile Thermal Control

The TK-25D is a professional-grade thermoelectric cooler and warmer designed for home and office environments. With a generous 25-liter capacity and user-adjustable temperature settings, it offers precise control for your storage needs. Its compact design and efficient power consumption make it an ideal solution for various temperature-sensitive applications.
