

Thermoelectric Dehumidifier with Auto-Shut-Off

This portable thermoelectric dehumidifier features a 1.5L water tank and removes up to 800ml of moisture per day. The auto-shut-off function provides added safety and convenience.

ADDITIONAL IMAGES

Overview

Peltier technology efficiently condenses air moisture into the water tank.

Sleek, modern design that integrates into any room decor.

Compact Thermoelectric Dehumidifier

This portable thermoelectric dehumidifier utilizes advanced Peltier technology to efficiently extract up to 800ml of moisture per day, making it an ideal solution for small spaces like bedrooms, bathrooms, closets, and RVs. Designed for convenience and safety, the unit features an automatic shut-off function that engages when the 1.5L water tank reaches capacity, preventing overflows. With its quiet operation and energy-efficient design, it helps maintain comfortable humidity levels while preventing the growth of mold and mildew.

Technical Specifications

Easily monitor water levels with the transparent tank design.

Daily Capacity	800 ml/day
Water Tank Capacity	1.5 L
Operating Temperature Range	15°C - 40°C
Voltage & Frequency	110V or 220V / 50-60Hz

Dimensions

Unit Dimensions (W x H x D)	204 x 335 x 142 mm
Packing Dimensions (W x H x D)	260 x 410 x 192 mm

Features

Compact and portable design suitable for various indoor environments.

Key Features

Auto-Shut-Off • Portable • Low Noise • Thermoelectric Technology • Visible Water Level

Compliance

Certifications	CE, CB, GS, ISO 9001, BSCI, EMC, CCC, Intertek ETL
