

# Thermoplastic Table Top Conveyor Chain

This thermoplastic table top conveyor chain is designed for smooth conveyance. Its modular design and durable plastic construction ensure reliable performance.

## ADDITIONAL IMAGES

## Overview

### High-Performance Conveyor Solution

The HS-820-K750 is a high-performance thermoplastic table top conveyor chain engineered for demanding material handling applications. Designed for reliability and efficiency, this chain features a modular construction that simplifies installation and maintenance while ensuring smooth, stable operation. It is an ideal solution for industries such as beverage, food processing, and packaging, where consistent performance and hygienic transport are critical.

## Technical Specifications

Model Number	HS-820-K750
Pitch	38.1 mm
Width	190.5 mm
Weight	1.03 kg/m

## Materials & Construction

Plate Material	POM-DP, POM-LF
Pin Material	Cold roller austenitic stainless steel

## Compliance & Features

### Certifications

FDA • ISO 9001:2008

### Key Features

- Modular design for easy maintenance
- Wear resistant
- Low friction
- Chemical compatible
- Patented design

## Application

Suitable Industries

Beverage, Food Processing, Packaging, Manufacturing
