Product Overview

Professional Grade Thermostatic Mixing Valve

This thermostatic mixing valve is designed to provide precise and consistent water temperature control for HVAC&R and plumbing applications. Built with durable materials, it reliably mixes hot and cold water to maintain a stable setpoint, ensuring safety and optimal performance. Engineered for demanding environments, this valve provides a dependable solution for professional heating and plumbing systems.

Key Features

Constant Temperature, HVAC&R Compatible, Precision Control, Durable Construction

Technical Specifications

Available Sizes

- 1/2 inch
- 3/4 inch

Model Codes

Size	Code
1/2 inch	Y00477
3/4 inch	Y00478
