## Product Overview

### Professional Thin Sanding Blocks

These versatile thin-profile sanding blocks are engineered for precision detail work, allowing access to tight corners and intricate surface areas. Designed for both wet and dry applications, they are effective on wood, metal, and plastic surfaces. The blocks are built for durability and provide consistent pressure, making them an essential tool for professional finishing and surface preparation.

## Technical Specifications

### Available Dimensions

- 100 x 70 x 25 mm
- 125 x 100 x 12 mm
- 100 x 70 x 12 mm
- 110 x 170 x 12 mm

### Available Grits

- 60#
- 80#
- 100#
- 120#
- 320#

### Abrasive Materials

White Aluminum Oxide, Silicon Carbide, Corundum

## Performance Features

### Sponge Density Options

Low • Medium • High

### Key Features

Wet/Dry Compatible, Flexible for Curved Surfaces, Environmental Protection, Washable

## Compliance and Standards

Certifications

BSCI, FSC, ISO
