

Thread Cutting Die Stock Set

This die stock set is designed for creating threads on pipes and rods. It includes multiple die heads of varying sizes, a ratchet handle, and extension bars.

Product Overview

Professional Thread Cutting Die Stock Set

This comprehensive thread cutting die stock set features an enclosed ratchet system designed for fast and easy die-head changes. The off-centered ratchet handle provides essential versatility, allowing operators to work effectively in confined spaces. Built for durability and precision, this toolset comes organized in a reinforced plastic box for secure storage and transport.
