

# Thread Stand with Multiple Spool Holders

This thread stand is a robust and versatile accessory designed to streamline thread management in sewing, embroidery, and other textile-related applications. The adjustable height and rotating arm provide optimal thread delivery, preventing tangles and ensuring smooth operation.

## Overview

### Versatile Thread Management Solution

The 42-604 Thread Stand is a robust and versatile accessory designed to streamline thread management in sewing, embroidery, and textile applications. It features a stable base with multiple spool holders that accommodate various thread sizes and types, ensuring organized operation. With an adjustable height and rotating arm, it provides optimal thread delivery to prevent tangles and enhance efficiency in both industrial and home environments.

## Technical Features

### Performance Highlights

**1 Qty**

Rotating Arm

**1 Feature**

Adjustable Height

<b>Construction Material</b>	Durable materials with a stable base
<b>Thread Delivery System</b>	Rotating arm for smooth, tangle-free operation

## Applications

### Suitable Environments

Industrial • Home Use • Sewing Workshops • Embroidery Studios

### Compatible Thread Types

- Various thread sizes
- Multiple spool types
- Sewing threads
- Embroidery threads

## Design & Utility

<b>Key Benefits</b>	Tangle Prevention, Efficiency, Organization, Smooth Operation
<b>Spool Capacity</b>	Multiple spool holders
