

Threaded Button Drill Bits

These threaded button bits are designed for rock drilling applications. The bits are engineered for optimal drilling efficiency and longevity in demanding mining and construction environments.

Product Overview

High-Performance Threaded Button Bits

These threaded button bits are manufactured using high-quality alloy steels and premium carbide inserts to ensure maximum drilling efficiency. Engineered with hot press technology, they offer superior durability and longevity in demanding mining and construction environments. They are versatile tools designed to provide reliable, cost-effective drilling performance across a wide variety of rock formations.

Technical Specifications

Head Diameter Range

33 mm

Minimum Diameter

152 mm

Maximum Diameter

Face Designs

- Flat face
- Drop center
- Uni-face

Available Thread Sizes

R25, R28, SSR28, R32, SSR32, R35, SSR35, R38, T38, T45, T51, SST58, SST68, SGT60
