

Three-Blade Plastic Fan for Electrical and Exhaust Fans

This three-blade fan is designed for electrical and exhaust fans. Constructed from durable black plastic, it features angled surfaces for efficient air movement and ventilation.

Product Overview

High-Performance Air Circulation Solution

This three-blade fan is engineered for optimal performance in both electrical fans and exhaust systems. Constructed from durable, high-quality black plastic, it features a precision-angled blade design that ensures efficient air movement and reliable ventilation. With a secure central hub mounting system, this component is suitable for a wide range of household and industrial air circulation applications.

Technical Specifications

Number of Blades	3
Material	Durable Plastic
Color	Black
Application Compatibility	Electrical Fans, Exhaust Fans, Household Use, Industrial Use

Design Features

Mounting Mechanism	Central hub with motor shaft mounting holes
Blade Characteristics	Angled surface for efficient airflow
