

Three-Phase Electronic Energy Meter

This is a three-phase, four-wire electronic multi-function energy meter. It accurately measures electrical energy consumption, supporting both active and reactive energy measurement.

Product Overview

Professional Three-Phase Energy Measurement

The DTSD188S is a high-precision, three-phase four-wire electronic multi-function energy meter engineered for reliable energy consumption monitoring. It delivers accurate active and reactive energy measurement, making it suitable for demanding industrial and commercial power management applications. Built to rigorous national standards, this device ensures consistent performance and long-term stability for professional electrical systems.

Electrical Specifications

Voltage Rating

220 V

Voltage Phase

380 V

Voltage Line

Current Rating	1.5 A
Maximum Current	6 A
Frequency	50 Hz

Performance Standards

Accuracy Classes

Measurement Type	Class	Impulse Constant
Active Energy	0.5S	8000 imp/kWh
Reactive Energy	2	8000 imp/kvarh

Compliance Standards	DL/T 614-1997, GB/T 17882-1399, GB/T 17883-1999
