

Three-Phase Electronic Prepaid Energy Meter

This is a three-phase electronic prepaid energy meter. It operates at 220/380V, with 3x10(40)A, 50Hz and a pulse constant of 320 imp/kWh.

Overview

Three-Phase Electronic Prepaid Energy Meter

This three-phase electronic prepaid energy meter is designed for accurate electricity consumption management. It operates on a 220/380V system and is engineered for reliable performance in industrial or commercial settings. The device adheres to established industry standards for quality and measurement precision, ensuring dependable operation for energy monitoring.

Electrical Specifications

Voltage Rating	220/380V
Current Rating	3x10(40)A
Frequency	50 Hz
Pulse Constant	320 imp/kWh

Compliance & Standards

Standards Compliance	GB/T18460.3-2001
