

Three-Phase Electronic Prepaid Energy Meter

The DTSY188 / DSSY188 E is a three-phase electronic prepaid meter suitable for small industrial users and water well applications. It measures active energy consumption with prepaid functionality.

Overview

Advanced Three-Phase Prepaid Metering

The DTSY188 / DSSY188 E is a robust three-phase, four-wire electronic energy meter designed for precise active energy measurement. Engineered for small industrial and commercial applications, it features advanced prepaid functionality, allowing users to manage energy consumption efficiently through RF card technology. This intelligent meter ensures reliable performance with comprehensive monitoring and alarm capabilities.

Technical Specifications

Voltage Rating	380 V
Current Rating	3x1.5(6)A
Impulse Constant	3200 imp/kWh
Frequency	50 Hz
Standards Compliance	GB/T 18460.3-2001

Features & Indicators

LED Indicators

- Reverse Direction
- Alarm
- Trip
- Pulse Output

Communication	Infrared
Display Type	Digital
