

Three-Phase Multi-Tariff Energy Meter

This three-phase multi-tariff meter is designed for the accurate measurement of electrical energy consumption. It features a digital display and multi-tariff functionality, supporting both kWh and kvarh measurement.

Product Overview

High-Precision Energy Management

The Three-Phase Multi-Tariff Energy Meter is engineered for the precise measurement of electrical energy consumption in demanding industrial and commercial environments. Offering Class 1 accuracy, this device supports both kWh and kvarh measurement to ensure comprehensive energy tracking. Its multi-tariff functionality provides flexible billing capabilities, making it an ideal solution for optimized utility management.

Technical Specifications

Voltage Rating

400 V

Voltage

Current Range

20(80) A

Frequency

60 Hz

Accuracy Class

Class 1

Certifications and Compliance

Standards and Certifications

IEC Standard, CE Certified

Device Features

Measurement Capability

- kWh (Active Energy)
- kvarh (Reactive Energy)
- Multi-tariff billing support
