

Three Phase Pre-Paid Energy Meter

This three-phase electronic pre-payment energy meter accurately measures electrical energy consumption. Operating at 220/380V with a 3x10(40)A current rating at 50Hz, it features an electronic display and complies with GB/T18460.3-2001 standards.

Product Overview

Smart Energy Management

This three-phase electronic pre-paid energy meter provides high-precision monitoring for electrical energy consumption. Engineered for reliability in residential and commercial environments, it supports efficient energy cost management through pre-payment functionality. The unit complies with national technical standards ensuring consistent and accurate measurement for long-term operational use.

Technical Specifications

Current Rating

10 A

Base Current

40 A

Max Current

Rated Voltage

380 V

Operating Frequency

50 Hz

Compliance and Standards

Standards

GB/T18460.3-2001

Features

Core Features

- Three-phase electronic measurement
- Pre-payment energy management system
- Digital electronic display
- High accuracy electronic sensing
