Product Overview

Industrial Three-Piece Bronze Ball Valve

This three-piece ball valve is engineered for demanding industrial applications, offering a full port design that ensures unrestricted flow and minimal pressure drop. Constructed from durable bronze and featuring PTFE seats and seals, it provides excellent chemical resistance and reliable shutoff performance. The three-piece assembly allows for straightforward maintenance and inspection, making it a robust solution for fluid and gas control systems.

Design and Construction

Port Design

Full Port

Valve Type

Three-Piece Ball Valve

Body Material

Bronze

Seat and Seal Material

PTFE

Maintenance Features

Three-piece design, Bolted connections, Easy inspection

Operational Specifications

Suitable Media

- Various industrial fluids
- Gases

Operation

Manual Lever Handle
