Product Overview

Industrial Three-Piece Bronze Ball Valve

This three-piece bronze ball valve is engineered for demanding industrial applications requiring reliable flow control. Featuring a full port design, it ensures maximum flow capacity and minimizes pressure drop across the system. The robust construction includes a manual lever handle and secure bolting, making it a dependable solution for various fluid and gas management needs.

Technical Specifications

Port Configuration

Full Port

Design	Three-piece
Body Material	Bronze
Operation	Manual Lever Handle
Connection Type	Threaded (G)

Dimensional Data

Key Dimensions

Dimension Parameter	Description
DN	Nominal Diameter
L / L1 / L2	Length Parameters
H	Height
G	Thread Standard
