

Three-Pole AC Definite Purpose Contactor

This three-pole AC definite purpose contactor is designed for commercial HVAC and refrigeration applications. It is suitable for switching motors, compressors, resistive heating, lighting and other loads.

Product Overview

Professional HVAC Contactor

This three-pole definite purpose contactor is engineered for reliable performance in HVAC and refrigeration systems. Designed for switching motors, compressors, and resistive heating loads, it offers a compact, robust construction suitable for demanding industrial environments. It supports both single-phase and three-phase power configurations, making it a versatile choice for air conditioning units and heat pumps.

Electrical Ratings

Core Electrical Specs

30 A

Rated Current

600 VAC

Max Voltage

24 VAC

Coil Voltage

Performance Data

Voltage	HP (1PH)	HP (3PH)	LRA
120	3	—	—
240	7.5	10	240
480	—	20	200
600	—	25	160

Technical Specifications

Installation Torque

- Screws: 22 in-lbs
- Lugs: 40 in-lbs

Standards

CE • IEC60947-4-1

Configuration

3 Poles, 1PH Compatible, 3PH Compatible, Hermetic Refrigeration Compressor Compatible
