Product Overview

Commercial Beverage Solution

This three-tank refrigerated beverage dispenser is engineered for high-volume commercial environments, such as buffets, restaurants, and catering events. Featuring a durable stainless steel construction and transparent tanks, it offers excellent visibility and reliable performance for serving chilled drinks. The unit is designed with energy efficiency in mind, incorporating a quiet, closed compressor system that ensures optimal serving temperatures.

Performance & Technical

Operating Noise Level	65 dB
Cooling Technology	Stainless Steel Evaporator, Closed Compressor, Fast Refrigeration
