Product Overview

A versatile water dispenser featuring three smart faucets and flexible storage options.

Versatile Water Dispenser

This versatile water dispenser provides hot, ambient, and cold water on demand, making it an ideal solution for homes and offices. Designed with flexibility in mind, it features smart indicator lights and can be configured with either an integrated 12L cabinet or a 12L fridge. The unit supports both bottle bottom loading and Point-Of-Use (POU) filtration, ensuring it adapts to various installation preferences.
